

BeoCare® Abdominal Surgical Binder

BeoCare® Abdominal Surgical Binder

The BeoCare abdominal surgical binder improves deep breathing and early ambulation which promotes the healing process and helps ensure a speedy recovery.

BeoCare Abdominal Binders are made with our proprietary stretch material and have a Velcro® brand closure. The closure adheres anywhere on the binder which allows the correct amount of compression and ensures a custom fit for the patient.

Our binder is available with the optional BeoCare Secure Strip, a sewn-in bulb holder strip, which will securely hold up to four drainage bulbs. The binder fabric can easily be cut to accommodate drainage tubing without fraying. The binder can also be used as an abdominal wound dressing holder.

All BeoCare abdominal binders are made in the USA. Our abdominal binders are available in 6", 9", 12" or 15" widths and they sized to meet the entire patient population (see *Size Guide on reverse side*).

Abdominal Binder Indications for Use

- Abdominoplasty (*Tummy tuck*)
- Liposuction
- Gastropasty
- POTS (*Postural tachycardia syndrome*)
- Hernia repair
- Bladder surgery
- Cesarean section
